Alice Drive Middle School Electronic Device Use Policy 2023-2024

Dear Sumter School District Parents and Legal Guardians,

Electronic devices (such as mobile phones, smartphones, smartwatches, cameras, etc.) that allow students or staff members to view, access, retain, or send information from state-mandated exams are not permitted.

Devices can be used by students and employees who utilize them for clearly defined medical needs (such as glucose monitoring or cardiac monitoring) during testing.

Alice Drive Middle will collect and secure all electronic devices within the testing environment. Having or using prohibited electronic devices while taking a state exam is a testing violation that will lead to disciplinary action and could invalidate a student's testing results.

If a student violates the policy by not turning the device over to their teacher, they will go to a school administrator to complete testing. It will also result in the student being suspended. If the device is used for cheating, it can result in an expulsion hearing.

We take all testing seriously. Therefore we would like to thank you in advance for your cooperation during any state testing. If you have any questions, please call us at any time.

Sincerely,

Mrs. J. Pressley, Ed.S

ADM Principal
